Progress report

Preliminary multimodal results from FOR2107

29 September 2026

Current data sample

Cohort

1,834
participants

912 clinical
922 healthy reference

Clinical composition

MDD	687
MDD + anxiety	210
Anxiety only	15
Total	**912**

Participant profile

Mean age
35.7 y clinical
36.4 y healthy

Sex
602 F / 310 M clinical
584 F / 337 M healthy

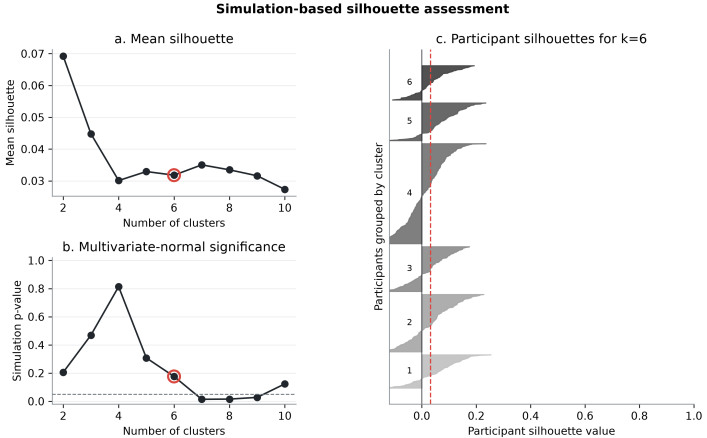

Features in Tozzi et al.

Data source	Task / contrast	Circuit targeted	Features
Task-free fMRI	No task; band-limited connectivity	Default mode (5), salience (3), attention (6)	14
Facial-emotion task	Sad > neutral, conscious faces	Negative affect — sad (5 activations + 4 PPIs)	9
Facial-emotion task	Threat > neutral, conscious faces	Negative affect — conscious threat (3 activations + 2 PPIs)	5
Facial-emotion task	Threat > neutral, non-conscious faces	Negative affect — non-conscious threat (3 activations + 2 PPIs)	5
Facial-emotion task	Happy > neutral, conscious faces	Positive affect (3 activations)	3
Go/NoGo task	NoGo > Go	Cognitive control (3 activations + 2 PPIs)	5
		Total	**41**

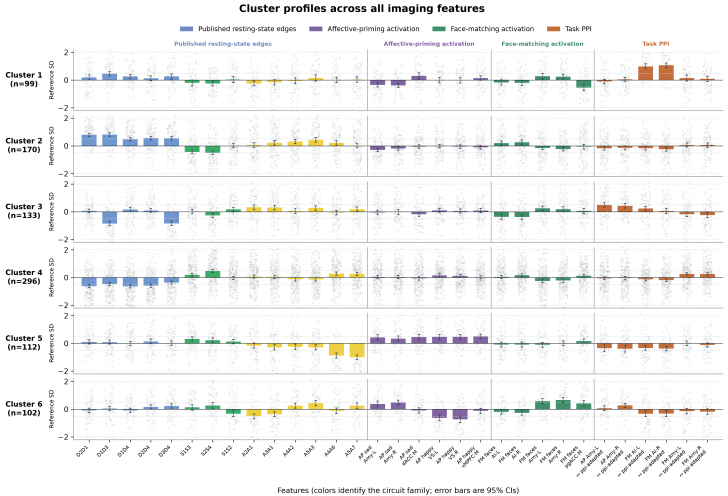

Current FOR2107 features

Data source	Task / contrast	Circuit targeted	Features
Task-free fMRI	No task; band-limited connectivity	Default mode (5), salience (3), attention (6)	14
Affective-priming task	Sad > neutral	Threat circuit (3 activations + 2 PPIs)	5
Affective-priming task	Happy > neutral	Positive affect (3 activations)	3
Face-matching task	MatchFaces > MatchShapes	Negative affect — sad (5 activations + 4 PPIs)	9
		Total	**31**

Clustering diagnostics

Profiles: all 31 features, shown in the paper's visual grammar

Closest FOR2107 matches to Tozzi's feature set

Data source	Task / contrast	Circuit targeted	Features
Task-free fMRI	No task; band-limited connectivity	Default mode (5), salience (3), attention (6)	14
Affective-priming task	Sad > neutral	Negative affect — sad analogue (5 activations + 4 PPIs)	9
Affective-priming task	Happy > neutral	Positive affect (3 activations)	3
Threat-face task	No matching FOR2107 contrast	Negative affect — conscious threat	0
Threat-face task	No matching FOR2107 contrast	Negative affect — non-conscious threat	0
Go/NoGo task	No Go/NoGo task available	Cognitive control	0
		Total closest-match profile	**26**

Discussion

How should we move forward?
